What to check before a treatment

Cosmetic laser clinics must be registered

gov.je says businesses using lasers for cosmetic purposes must register with the Jersey Care Commission, under the Regulation of Care (Jersey) Law 2014. The exception is treatment carried out or supervised by a doctor or registered dentist. You can check a service on the Commission's Find a Care Service search.

Injections are prescription-only medicines

Under the Medicines (Prescription Only) (Jersey) Order 1997, medicines given by injection are prescription-only, and only doctors, dentists and certain registered prescribers, such as nurse prescribers, can prescribe them. If someone offers injectable treatments, ask who prescribes them.

Check a nurse or doctor is registered

Doctors and nurses working in Jersey are on the Jersey Care Commission's Register of Jersey Care Professionals, which you can search by name. Their UK registers, the GMC for doctors and the NMC for nurses, show any conditions on their practice. Dentists are listed by the Judicial Greffe at the Royal Court.

Tattoos, piercing and electrolysis

Under the Piercing and Tattooing (Jersey) Law 2002, the practitioner and the premises must both be registered with the Jersey Care Commission, renewed every year. Tattooing and body piercing aren't allowed under 16, and from 16 a parent must give written consent until full age. Under-16s need written parental consent for ear piercing and electrolysis.

If a treatment goes wrong

A service must be carried out with reasonable skill and care. Raise it with the business first. Trading Standards Jersey gives free, confidential advice on 01534 448160.

Listings are free and in alphabetical order. Jersey Web is not connected with these businesses unless a listing says so: check details with each business before you book. Guidance checked 14 November 2026.
