What to check before you hire

Washing water mustn't go down outside drains

Most road and outside drains carry rainwater to streams and the sea. Under the Water Pollution (Jersey) Law 2000, surface water drains count as controlled waters, and causing or knowingly permitting their pollution is an offence. gov.je's home pollution guidance says to use little or no detergent on patios and exterior surfaces and not to let soapy water into a surface water drain.

So ask a pressure washing or roof cleaning firm how it deals with run-off. You can report pollution on 01534 709535.

Roof cleaning counts as construction work

The Health and Safety Inspectorate says all roof cleaning work counts as construction work, so a risk assessment and a safe work method statement are needed before it starts. It has stopped unsafe roof cleaning in Jersey before, so ask how the firm will prevent falls.

Employing a cleaner yourself

If you hire a cleaner directly and they aren't self-employed or paid through an agency, gov.je says you are their employer. You must tell Revenue Jersey within 7 days, deduct tax and Social Security, and file a monthly return, though you don't need a business licence. Employees are entitled to the minimum wage, which was £13.59 an hour from 1 April 2026.

Your rights

A service must be carried out with reasonable skill and care, in a reasonable time and at a reasonable price if none was agreed. A quotation is a fixed price, so ask for one in writing. Trading Standards Jersey gives free advice on 01534 448160.

Listings are free and in alphabetical order. Jersey Web is not connected with these businesses unless a listing says so: check details with each business before you book. Guidance checked 14 November 2026.
