Replacing windows and doors in Jersey

Do you need planning permission?

gov.je says you can replace windows and doors without planning permission if the building isn't a listed building or place, isn't in a conservation area, and the new ones are the same size and in the same place.

For a listed building, you always need permission to change an external window or door, with a heritage statement explaining why repair isn't possible. In a conservation area you may need it too. The guidance on historic windows and doors was revised in February 2025.

Building Bye-laws and FENSA

Replacement windows and doors in an existing home must meet the Building Bye-laws. If an installer registered with an approved scheme, such as FENSA, CERTASS, NAPIT or Certsure, fits them, they self-certify and you don't need a building application. Otherwise you apply on form B3. Any new window or door opening needs building permission, and FENSA doesn't cover commercial premises or new builds.

Energy standards

Jersey's technical guidance sets a standard for replacement windows of WER band C or better, or a U-value of 1.6 W/m²K. Just replacing the glass in an existing frame doesn't count as a new window.

Safety glass

The Building Bye-laws say glazing people are likely to walk into must be protected, resist impact, or break safely. gov.je's guidance notes for form B3 name the usual places: windows less than 800mm from the floor, glazing in doors below 1500mm, and windows within 300mm of a door.

Quotes and your rights

Get a written quotation, which is a fixed price. Work must be done with reasonable skill and care and in a reasonable time. Trading Standards Jersey gives free advice on 01534 448160.

Listings are free and in alphabetical order. Jersey Web is not connected with these businesses unless a listing says so: check details with each business before you book. Guidance checked 14 November 2026.
